FIG. 5

The screenshot displays the 'FCS Water Generation' application window. The interface includes a menu bar with 'File', 'Operations', and 'Options'. A 'Scenarios' panel on the left contains a 'Scenario' dropdown menu set to 'Caspian 3 day'. Below this is a 'Pulse' section with a list box containing 'Early Entry Ops', 'Center of Gravity', 'Pursuit', 'Urban Assault', and 'Air Mech Assault', accompanied by 'Add', 'Delete', and 'View' buttons. The 'Vehicle Type' section features a list box with 'FRMV', 'FTTS_MS', 'FTTS_U', 'ICV', and 'MCS', with 'ICV' selected. To the right of the vehicle list is a 'Segment' dropdown menu showing 'PrimaryOffense', 'SecondaryOffense', 'CrossCountryOffense', 'IdleOffense', and 'PrimaryDefense'. A 'Continue' button is located below the segment menu. The central 'View Segment' dialog box is open, showing fields for 'Name' (PrimaryOffense), 'Vehicle Type' (ICV), 'Duration' (1.8018), 'Resource' (NONE), 'Resource Time', and 'Engine State' (Road_March), with an 'Accept' button. On the right side, a 'Settings' panel includes input fields for 'H2O Gen Rate' (0.6), 'H2O Consumption' (4.1 gal/day), and 'Run Length' (mins). The bottom status bar shows 'Ready', 'Input mode', the date '6/6/2003', the time '3:49 PM', and a 'NUM' button.
